

CUSTOMER SPOTLIGHT:
CATHOLIC CHARITIES OF SOUTHERN NEVADA SELECTS AGILYSYS' EATEC® SOLUTION TO MANAGE FOOD PROGRAM OPERATIONS

Catholic Charities of Southern Nevada, one of the largest nonprofit social service providers in the state, will implement Agilysys' Eatec® inventory management solution, to modernize the procurement, storage and inventory operations of their extensive food and nutrition program.

To help control the consistent flow of food products as well as purchases and inventory levels, the organization requires a robust solution that streamlines the purchasing process, controls inventory and reduces overall costs.

Eatec was top of mind for VP of Food Services, Mike Schmit, who through his 20 years of experience managing F&B operations at Las Vegas casinos, was very familiar with the Eatec system and its successful reputation at restaurants and F&B outlets.

“We are proud that over 90 cents of every dollar donated goes directly to providing client services, Eatec will help us be even more efficient and keep administrative costs lower. The more efficient we are at the operational level, the more resources we can devote to providing better assistance for the people we serve.”

-- Mike Schmit, Vice President of Food Services

The food services program at Catholic Charities of Southern Nevada provides nearly 2 million meals to vulnerable men, women and children each year. It includes a dining facility, serving an average of 700 meals a day, a grocery-style food pantry, providing more than 50 pounds of food to an average of 150 families in need daily, and a Meals on Wheels program, serving 2,125 seniors every day.

AGILYSYS SOLUTIONS INSTALLED AT THE CATHOLIC CHARITIES OF SOUTHERN NEVADA

- Eatec

ABOUT OUR SOLUTIONS:

Agilysys Eatec is a full-featured inventory, procurement and production system designed specifically for the hospitality and foodservice industries. Along with its core purchasing, inventory, recipe, forecasting, production and sales analysis functions, Agilysys Eatec also offers modules for catering, cycle planning, retail management, nutrition and allergens. The modular structure allows hospitality and foodservice operators to construct the exact set of features they need — whether it is an enterprise-wide solution for multiple sites or a single-site system for multiple functions. Agilysys Eatec is available as an on-premise solution or through a subscription service.

ABOUT AGILYSYS:

Agilysys is well known for its long heritage of hospitality-focused technology innovation. The Company delivers modular and integrated software solutions and expertise to businesses seeking to maximize Return on Experience (ROE) through hospitality encounters that are both personal and profitable. Over time, customers achieve High Return Hospitality by consistently delighting guests, retaining staff and growing margins. Customers around the world include: branded and independent hotels; multi-amenity resort properties; casinos; property, hotel and resort management companies; cruise lines; corporate dining providers; higher education campus dining providers; food service management companies; hospitals; lifestyle communities; senior living facilities; stadiums; and theme parks. The Agilysys Hospitality Cloud™ combines core operational systems for property management (PMS), point-of-sale (POS) and Inventory and Procurement (I&P) with Experience Enhancers™ that meaningfully improve interactions for guests and for employees across dimensions such as digital access, mobile convenience, self-service control, personal choice, payment options, service coverage and real-time insights to improve decisions. Core solutions and Experience Enhancers are selectively combined in Hospitality Solution Studios™ tailored to specific hospitality settings and business needs.
